

No. 67951

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office AUG 23 2001

Returned to applicant for correction _____

Corrected application filed _____

Map filed APR 04 1985 under 48962

The applicant **Indian Hills General Improvement District** hereby makes application for permission to change the **Place of Use** of water heretofore appropriated under **Permit 58529**

1. The source of water is **Underground**
2. The amount of water to be changed **0.83 c.f.s, 196.4 mga**
3. The water to be used for **Quasi-Municipal**
4. The water heretofore permitted for **Quasi-Municipal**
5. The water is to be diverted at the following point **no change**
6. The existing permitted point of diversion is located within **NE¼ NW¼ Section 30, T.14N., R.20E., MDM, or at a point from which the NW corner of said Section 30 bears North 83° 43' 21" West, 1351.47 feet**
7. Proposed place of use **See Attached**
8. Existing place of use **Sec Attached**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **drilled well, pump, motor, storage tanks to distribution system**
12. Estimated cost of works **\$450,000.00**
13. Estimated time required to construct works **16" casing to total depth of 400 feet with 10" screen insert 100' - 400', and 50 h.p. submersible pump**
14. Estimated time required to complete the application of water to beneficial use **20-years**
15. Remarks: **See Attached**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 58529 is issued subject to the terms and conditions imposed in said Permit 58529 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Indian Hills General Improvement Districts Permits 42791, Certificate 14879; 42792; 42795; 42799; 42800; 43685; 44626; 52093, Certificate 14882; 58131; 58528; 58530; 61366; 67951; 68890; 71495 and 71496 shall not exceed 1680.2 acre-feet annually.

This permit is subject to the "INTERLOCAL CONTRACT" filed as 2001.071, dated May 8, 2001, between Indian Hills General Improvement District and Douglas County.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

The issuance of Permit 67951 totally abrogates Permit 58529.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.83 cubic feet per second, but not to exceed 600.9 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

November 10, 2005

Proof of completion of work shall be filed on or before:

December 10, 2005

Water must be placed to beneficial use on or before:

November 10, 2014

Proof of the application of water to beneficial use shall be filed on or before:

December 10, 2014

Map in support of proof of beneficial use shall be filed on or before:

Attachment to Application to Change Permit 58529, Indian Hills General Improvement District

Item 15. Remarks

The well under this Application, locally known as the "Brown's Well", is completed and currently represents the primary water supply source for the Indian Hills General Improvement District (IHGID).

The proposed place of use (Item 7) includes the current water service area for IHGID, in addition to an area proposed for future development by Douglas County outside of the IHGID service area. This Application is submitted in compliance with the provisions of an Interlocal Contract for water services dated April 8, 2001, between Douglas County and IHGID (copy attached for reference). Under this Contract, IHGID agrees to provide excess water available from the IHGID system to supplement the Douglas County water system being developed for service to the future development area, i.e., "East Valley Water Service Area (North County)".

IHGID water rights to be changed under this Application are intended to supplement the Douglas County water system, but are to remain non-supplemental and separate from any other water rights held by Douglas County or other parties for service to the north Douglas County area outside of the IHGID service area. Water rights under existing Permit 58539 may in the future be removed by IHGID from the north Douglas County area, as provided for under the Contract.

Use map filed under Permit 48962 to support the existing Point of Diversion.
